Number & Title:

J-51: Admission Based on Interim Grades for Applicants following Canadian Extra-Provincial Curricula

Effective/Implementation Date:

2 March 2011.

Approval Date:

Okanagan Senate on 2 March 2011 and the Vancouver Senate on 23 February 2011.

Review Date:

This policy shall be reviewed three (3) years after approval and thereafter as deemed necessary by the responsible committees.

Responsible Committees:

Admissions Committee of the Vancouver Senate and Admissions & Awards Committee of the Okanagan Senate.

Authority:

University Act:

S. 37(1)

“The academic governance of the university is vested in the senate and it has the following powers:

(b) to establish committees it considers necessary and, by 2/3 vote of its members present, to delegate to one or more committees those of its powers as it may determine;”

(c) to determine all questions relating to the academic and other qualifications required of applicants for admission as students to the university or any faculty,
and to determine which faculty the students pursuing a course of study must register.”

Purpose and Goals:

This policy is designed to provide a mechanism for an interim academic assessment of applicants from all Canadian extra-provincial educational jurisdictions to undergraduate direct-entry programs on the basis of Grade 11 course grades for in-progress Grade 12 courses.

Applicability:

This policy is applicable to secondary school applicants to direct-entry undergraduate programs at the University from all Canadian jurisdictions not following the BC/Yukon Secondary School Curriculum.

Exclusions:

Applicants following the Quebec Secondary School Curricula are excluded from this policy as they are considered for admission based upon admission averages calculated on Collège d'enseignement général et professionnel (CEGEP) courses.

Definitions:

Admission Average shall mean the academic average calculated by the University to determine the applicant’s relative academic competitiveness.

BC/ Yukon Secondary School Curriculum shall mean a secondary school program of study prescribed and approved by the British Columbia Ministry of Education or the Department of Education of the Government of Yukon.

Extra-Provincial Curriculum or Extra-Provincial Curricula shall mean any Canadian secondary school system not following the BC/Yukon Secondary School Curriculum.

Grade 12 Course shall mean a course normally taken by students in the last year of secondary schooling that is academic in nature and offered by a recognized institution following the relevant provincial or territorial curriculum.

Grade 11 Course shall mean a course normally taken by students in the penultimate year of secondary schooling.

Direct-entry undergraduate program shall mean a course of study offered by the University leading to a degree or diploma to which applicants are generally admitted based primarily upon their secondary school academic performance or transfer from a comparable program at another institution.
Final course grade shall mean the grade normally issued at the completion of the course.

Interim course grade shall mean the grade issued for a course that is still in progress at the time of UBC’s academic assessment, provided that such a grade is issued after at least 50% of the course material is complete and evaluated.

Policy:

1) An admission average will be calculated where all courses required for admission have been completed or are in-progress.

2) Where available, final or interim course grades for Grade 12 courses shall be used in calculating an admission average; however, should one or more of the required Grade 12 courses not have a final or interim course grade at the time of academic assessment, the final course grade for a Grade 11 course(s) will be substituted into the calculation of the admission average as follows:

   a. for specified Grade 12 courses (English for all programs, or pre-requisite mathematics or science courses for some programs), a final course grade for a Grade 11 course in the same subject-area shall be substituted
   b. for other Grade 12 courses, a final course grade for a Grade 11 course may be substituted so long as the course meets the criteria for including secondary school courses in an admission average but is at the Grade 11 level, and is not in a subject area that is already being used in the calculation of the admissions average.

3) Criteria for Grade 11 courses that may be substituted for Grade 12 courses shall be set out in the procedures to this policy by the Responsible Committee.

4) Offers of admission based on admission averages that include one or more final course grades for grade 11 courses and/or interim course grades for grade 12 courses are subject to satisfactory completion of all required courses and maintenance of the required academic threshold average as noted in the official offer of admission. Failure to do so may result in the withdrawal of admission.

Introduction
Determining Admissibility
Specific Program Requirements

Determining Admissibility

Academic criteria are the primary basis for determining admissibility to UBC’s Okanagan campus; however, many programs consider non-academic information as well. See Broad-Based Admission (https://you.ubc.ca/ubc/okanagan/bba.ezc) for further information on non-academic admission criteria.

Academic averages for the purpose of admission to UBC’s Okanagan campus are primarily based on Grade 12 final or in-progress course grades available in the spring; however, an applicant’s full academic history may be considered, particularly where sufficient Grade 12 grade information is not yet available.

Applicants must arrange for their high school grades to be submitted to UBC Admissions before the stated document deadline. The grade record must include all final grades to date and a list of courses in progress with interim grades where possible. All offers of admission are subject to satisfactory completion of secondary school graduation requirements, completion of all required courses, and maintenance of minimum university admission standards. Offers of admission may be withdrawn from students who do not satisfy these requirements.

Enrolment Services
Undergraduate Admissions Office

History:

This is an amended version of the change initially approved for admission to the 2009 Winter Session and then extended for the 2010 and 2011 Winter Sessions and most recently recommended by the Admissions Committee of the Vancouver Senate and the Admissions and Awards Committee of the Okanagan Senate for normalization effective for the 2011 admissions cycle. Increased flexibility to allow for substitution of a final Grade 11 course for an unavailable Grade 12 course is proposed such that an acceptable Grade 11 course may be substituted for a non-required or elective Grade 12 course.

Appendix:

A. Criteria for Including Secondary School Courses in an Admission Average
Appendix A: Criteria for Including Secondary School Courses in an Admission Average

Secondary school courses included in an admission average must meet all of the following criteria:

1. Offered by a recognized institution. Recognized institutions, for the purpose of UBC admission, include those that are approved by:
   a. the Ministry of Education (or equivalent) in the relevant educational jurisdiction. Ministry-approved schools may offer both ministry developed courses and locally developed courses. Locally developed courses that are approved to satisfy graduation requirements may be included in admission averages if they meet the other criteria below or;
   b. a UBC-recognized accrediting body or;
   c. the Senate Admissions Committee or;
   d. a Senate-approved designate (e.g., Deans in cases of admission from non-accredited institutions on ‘Deans Discretion’).

2. Delivered at the Grade 12 level (or equivalent) or approved for substitution into an admission average by the Senate Admissions Committee;

3. Subject matter is one of the following:
   a. Academic in delivery;\(^1\)
   b. Supportive of broad academic goals and objectives of the University (e.g., the selection of Aboriginal students);
   c. Relevant to the selection of qualified students by a particular program or faculty. Inclusion of such courses in an admission average is subject to the approval of the Senate Admissions Committee on course-by-course basis.

4. Grades based on prior learning assessment and/or challenge exams are to be excluded from admission averages but may be used to satisfy program prerequisites. For example, language course grades based on a challenge exam will not be included in admission averages; however, the same language courses may be used to satisfy the language requirements for a degree program at the University.

---

\(^1\) Academic courses are typically those that involve critical or analytical thinking on the part of the student. Examples include mathematics, sciences, and most arts courses (e.g., history, psychology, or economics). Academic courses include some depth and prepare the scholar for further scholarly activities in the same or a related field. Academic courses that may be included in admission averages will often be associated with a particular discipline of study offered by UBC. Non-academic courses are typically those that are based in activities, vocations or applied skills. Non-academic courses also include those that are based in religious or social/political indoctrination (most often seen at religious schools or schools delivering a curriculum that is mandated by a non-democratic state), or activity courses such as physical education, military training, etc. Non-academic courses may sometimes be described as “terminal courses”, those that do not prepare students for further scholarly activities in a related subject. Finally, non-academic courses may convey a lot of information but lack depth or the requirement for critical or analytical thinking.
