Remarks from the Chair & Related Questions, continued

DISCUSSION

At Dr. Knight's request, Prof. Toope commented on the status of public transit. He expressed frustration about inadequate service levels. Due to under funding, Translink had cancelled several important projects. Prof. Toope also expressed disappointment that the recent Metro Vancouver Regional Growth Strategy placed rapid transit to UBC behind other projects, including the "green line" to the Fraser Valley. The AMS Council had passed a resolution opposing the Regional Growth Strategy and the Board of Governors had also expressed concern. Concerted advocacy efforts would be necessary in this area.

In response to a question from Dr. Singh, Prof. Toope detailed plans for an upcoming trip to India by Canadian university presidents. He explained that Canadian universities had previously been unable to gain the desired level of traction with respect to student recruitment and institutional partnerships in India, particularly compared to their Australian and British counterparts. The Association of Universities and Colleges in Canada (AUCC) had proposed a more dramatic approach to declaring Canada's interest in higher education in India. Under the terms of the recent Canada-India Memorandum of Understanding on Higher Education, Canadian university presidents were to travel to meet with potential partners and national media. Discussions were ongoing with the federal government about potential programs or other measures to support strong relationships with India.

The Senate received for information confirmation that the following items approved by the Vancouver Senate had been subsequently approved by the Board of Governors, as required under the *University Act*.

Guest Presentation: Office of the Ombudsperson for Students

Following an introduction by Dr. Farrar, the assembly recognized guest presenter Ms. Shirley Nakata, University Ombudsperson. Ms. Nakata gave an overview of the mandate and activities of her office. Highlights were as follows:

- An independent, impartial, and confidential resource to ensure that students are treated fairly in every aspect of university life;
- Office established in September 2009, jointly funded by the University, AMS, GSS;
- Guided by an Ombuds Advisory Committee, direct report to the President;
- Services include referring, coaching, facilitating informal resolution of complaints, investigating complaints of unfairness, making recommendations for systemic change;
- First annual report available at: <http://www.ombudsoffice.ubc.ca/aboutus/annual-reports/>; included observations about compartmentalization, accessibility of information, service standards, intercultural acuity;

Ms. Nakata invited Senators to contact her to discuss how the Ombuds Office might best support their work.

Office of the Ombudsperson for Students, continued

DISCUSSION

In response to a question from Mr. Meyers, Ms. Nakata confirmed that her Office served as a resource for student appellants to Senate Committees. While the Office could not act as an advocate for an individual student, there was support available to assist with understanding policy, accessing available resources, and helping the student to clarify the issues under appeal.

Mr. Hajian asked about mechanisms for raising awareness among students. Ms. Nakata invited advice on how best to reach students, noting that she had already been advised that mass email messages often went unread. She drew attention to recent meetings with stakeholder groups, a poster campaign, and consideration of advertising using social media. Dr. Harrison added that many Faculties had also been working with the Ombuds Office to embed content about available services on Faculty websites.

In response to a question from Mr. Rebane, Ms. Nakata stated that she was very pleased with the relationship between her Office and the AMS and GSS, and noted that many joint initiatives were in development. She noted a complementary relationship between the services provided by the three offices, and expressed the opinion that this relationship was beneficial to students.

The President thanked Ms. Nakata for her report, describing the first annual report of the Office of the University Ombudsperson as very perceptive.

Admissions Committee

Committee Chair Dr. Fielding presented the reports.

CHALLENGED EXAMINATIONS

The Committee recommended for approval a revised calendar entry on admission requirements for applicants following the BC/Yukon secondary school curriculum. In December 2009, Senate had approved criteria for including secondary school courses in the calculation of an admission average, which specifies that grades based on prior learning assessment and/or challenge exams are to be excluded from admission averages but may be used to satisfy program prerequisites. The revised calendar entry reflected this change.
