Jennie Gillespie DRENNAN Memorial Scholarship – Income of \$10,900 per annum from the Albert Alexander Drennan Memorial Scholarship Fund in memory of Jennie Gillespie Drennan, M.D., 1895, Queen's College, Kingston, Ontario, will provide a scholarship for a deserving woman student in the Faculty of Medicine. The award is made on the recommendation of the Faculty of Medicine.

Reason for change: The donor wants the scholarship to benefit only one student.

Agnes and Gilbert HOOLEY Scholarship in Chemistry – J. Gilbert Hooley (1914-1987), who grew up in Vancouver, obtained his B.A. (1934) and M.A. (1936) from UBC and his Ph.D. (1939) from MIT After three years with Corning Glass Works, Dr. Hooley joined the UBC Chemistry Department (1942) where he remained until his retirement in 1979. The data he produced on the atomic weight of rubidium for his master's thesis is still being used today and is considered a classic piece of research in this field. While at UBC, Dr. Hooley carried out pioneering research in the areas of specific heat measurements and staging in graphite compounds. In 1979 he received the prestigious Charles E. Pettinos Award, an international honour granted by the American Carbon Society. Dr. Hooley married Agnes Schroeder in 1939. She was also an honours student in chemistry at UBC, B.A. (1938). Mrs. Hooley taught large, first-year chemistry classes at UBC from 1944 to 1956. She also completed an M.A. in Adult Education at UBC and earned two degrees in Music (A.T.C.M. and L.R.S.M.). Dr. and Mrs. Hooley had a life-long involvement with music, literature and the arts plus a serious and wide-ranging concern about broader social issues. In addition, they were active out-of-doors: skiing, hiking and sailing. In recognition of the contributions of Dr. and Mrs. Hooley to the academic and cultural life at UBC, scholarships valued up to the cost of one year's tuition

(based on domestic tuition, credit costs only, and limited to 30 credits for undergraduates) have been endowed by their colleagues and friends. These scholarships are available to: two second-year chemistry students continuing into a third-year chemistry program at UBC; two third-year chemistry students continuing into a fourth-year chemistry program at UBC; and two graduate students enrolled in a chemistry program at UBC. Preference is given to students who indicate some awareness of the social role of science. Awards are made on the recommendation of the Hooley Fund Committee within the Department of Chemistry, and in the case of graduate students, in consultation with the Faculty of Graduate Studies. The awards are made in the following September.

Reason for change: The fund has grown enough that the donor's initial wishes can be realized. Specifically, that they be offered to 2nd, 3rd, 4th year undergraduate students as well as graduate students.

Peter M. LANSDORP Bursary – A bursary of \$200 has been endowed by Dr. Peter M. Lansdorp through his company, Tetramerics Biotechnology Inc., for a student in any year or faculty who is in need of financial assistance to begin or continue his or her postsecondary education.

Reason for change: The donor wants the bursary to benefit only one student.

BARK Memorial Scholarship – A scholarship of \$2,500 is awarded to a full-time law student who achieves high academic performance in their first year of law and has made a significant contribution to law school and community life. The award is made on the recommendation of the Faculty of Law.

Reason for change: Name of the law firm changed from Lang Michener to McMillan LLP.
