*Faculty of Education*

The committee recommended approval of curriculum proposals from the Faculty of Education.

*Faculty of Forestry*

The committee recommended approval of curriculum proposals from the Faculty of Forestry, subject to editorial changes.

*School of Human Kinetics*

The committee recommended approval of curriculum proposals from the School of Human Kinetics, subject to editorial changes.

*Faculty of Medicine*

The committee recommended approval of course changes from the Faculty of Medicine, subject to the following revision to the course description:

ANAE 450 (2) Introduction to Anaesthesia Patient assessment and preparation for surgery, conduct of general and regional anaesthesia; their complications and management.

*School of Rehabilitation Sciences*

The committee recommended approval of curriculum proposals from the School of Rehabilitation Sciences.

Dr. Berger  
Mr. Woo

}

*That the proposals of the Faculties of Arts, Commerce and Business Administration, Education, Forestry, Medicine, and the Schools of Human Kinetics and Rehabilitation Sciences be approved.*

Dr. Will drew attention to the change in name of the Bachelor of Physical Education (B.P.E.) degree to Bachelor of Human Kinetics (B.H.K.) which was noted in the curriculum proposals from the School of Human Kinetics. He stated that this was somewhat different from the usual curriculum proposals and that specific attention should have been drawn to this proposal. He also noted that the proposed change had been anticipated in that a statement in the Alumni Chronicle gives the impression that Senate has already approved this change, and that the Student Information System shows that this is already the name of the degree. Dr. Will stated that the assumption that Senate would approve the proposed change reduces the significance of the decision making function of Senate and he hoped that this would not happen again.

Senate agreed to a request that Dr. Schutz, Director of the School of Human Kinetics, be allowed to respond to a query by Dr. Will. Dr. Schutz stated that the name of degrees in this area varied greatly across Canada. Some universities had a Bachelor of Science in Kinesiology, some a Bachelor of Kinesiology and others a Bachelor of Human Kinetics.

Dr. Schutz said that the School felt that degree was appropriate for its program which includes humanities and social sciences as well as sciences. The School felt that the designation Bachelor of Science in Human Kinetics would have been too restrictive. Dr. Schutz also confirmed that although the title of the degree was to be changed the colours of the hood would remain unchanged.

*Dr. Cook*  
*Dr. Williams*

}

*That the proposal to change the name of the B.P.E. degree to B.H.K. be separated from the motion.*

Lost.

The motion to approve the recommendations of the Curriculum Committee was put and carried.

##### *Curriculum Committee*

## STUDENT APPEALS ON ACADEMIC DISCIPLINE

Professor Reid, Chair of the Committee, presented the following report:

Pages 33 and 34 of the current University Calendar deal with information concerning **Student Discipline** and end with the following heading and sentence.

### APPEALS

**A student has the right to appeal against the decision of the President to the Senate Committee on Student Appeals on Academic Discipline.**

The Senate Committee on Student Appeals on Academic Discipline recommends to Senate that the word "against" in the above sentence be changed to "from" and the following paragraphs be added after the above sentence:

A student who wishes to appeal the decision of the President must notify the University Registrar in writing and must provide a full explanation of the reasons for appealing.

Appeal hearings are relatively informal. They take place before several members of the University Senate. A student is entitled to be represented or assisted throughout the appeal process by an advocate who may be a friend, a relative or legal counsel. The student is entitled to explain the reasons for appealing either orally or in writing, and may call witnesses. The President is represented by his representative who presents the reasons for the President's decision.

The members of the Committee may ask questions of both the student and the President's representative. As soon as possible after the hearing is completed, the Committee will notify the student of its decision in writing.

<i>Prof. Reid</i>	}	<i>That the recommendations of the Committee on Student Appeals on Academic Discipline be approved.</i>
<i>Mr. Kettyle</i>		

It was agreed that the substitution of the word "from" for the word "against" was unnecessary and that the statement under the heading APPEALS could simply read "A student has the right to appeal the decision...".

The motion was put  
and carried.

## STUDENT AWARDS

Dr. Cook, Chair of the Committee, presented the report. Dr. Cook drew Senate's attention to the Buddhist Compassion Relief Tzu Chi Foundation Entrance Bursary totalling \$50,000 stating that the provision of this bursary money would enable more eligible students to attend UBC. Dr. Cook informed Senate that out of 400 well qualified students only approximately 100 receive entrance scholarships. She felt that this was a very important addition to the entrance scholarship program, particularly since bursaries (unlike loans) are not repayable. Dr. Cook also drew attention to the Memorial Scholarship in Canadian Studies in the name of Paul S. Plant stating that the Plant family had been closely associated with UBC for three generations.

*Dr. Cook  
Mr. Banfield*

}

*That the awards (listed in Appendix A) be accepted and forwarded to the Board of Governors for approval and that letters of thanks be sent to the donors.*

Carried.

## Academic Year 1994-95

A draft of the section of the Academic Year for inclusion in the Calendar had been circulated for information.

In response to a query, Dean Smith stated that the Faculty of Law was not starting classes a week later than other Faculties, in fact they were starting at the same time, the reason being that there was not sufficient time to run the orientation program in the time available between the end of August and Labour Day.

## Report on UBC Student Exchanges and Education Abroad Programs

A report on UBC exchanges and Education Abroad programs had been circulated for information. Vice President Birch drew attention to the work done by Martha Kertesz, Student Exchange Program Coordinator, who, organizationally, reports to the Registrar, stating that she has done a superb job of working with the rapidly growing number of exchange students.

In response to a query by Dr. Grace as to which institutions in Canada are currently in the process of negotiating with UBC for these exchanges, Vice President Birch stated that page 2 of Appendix 10 of the report lists those who expressed an interest in being part of a consortium for exchange. Since the publication of this list, the University of Saskatchewan, Memorial University of Newfoundland and Ryerson had been added. In addition there is a group of ten research intensive universities in Canada which have agreed in principle that they would like to encourage exchanges among their number.

### **Report on Recent Activities in the Training of Teaching Assistants**

A report on recent activities in the training of Teaching Assistants, prepared by Gail Riddell, Director of the Centre for Faculty Development and Instructional Services, had been circulated for information.

In commenting on the report, Mr. Woo, student senator, stated that students were encouraged by institution of this initiative and hoped that the University would continue this project.

Vice President Birch stated that some Faculties, with the cooperation of the Centre, maintained systematic programs.

In response to a query by Mr. Kettyle, Vice President Birch stated that as recommended in the Report of the Ad Hoc Committee on Teaching Evaluation, each year the Academic Vice President Birch reports to Senate on the action that has been taken following assessment of teaching that is less than satisfactory.

Dr. Levine noted that there is a program for peer consultation for members of staff who feel that they would like an objective peer to sit in on their lectures, review their performance, and make recommendations as to how they can improve.

### **University College Programs**

A report from Vice President Birch on UBC's joint ventures with Okanagan University College and the University College of the Cariboo had been circulated for information. It was noted that the report contained a list of the courses offered and the instructors approved to teach them, and that this year 48 Science courses and 57 Arts courses are offered at UCC and 38 Science and 70 Arts courses at OUC. It was stated that all instructors are appropriately qualified, are engaged in scholarly activity and have been approved by the relevant UBC department. In light of this, Vice President Birch proposed that subsequent reports not include the list of courses and instructors. The next report will focus on the review planned for 1994/95 and the principles and process to govern transition to the degrees being granted by the University Colleges. UBC's coordinators have recommended that students who have begun in a program leading to a UBC degree be permitted to receive a UBC degree provided they complete requirements within a reasonable time.

Referring to the circulated report, Vice President Birch noted that both P. Dill and W. Smythe, teachers of Psychology courses, have Ph.D. degrees and that this had been inadvertently omitted from the report.

### **Report on Enrolment 1993-94**

A report on enrolment for 1993-94 had been circulated for information.

### **Other business**

#### **ACOUSTICS OF UBC CLASSROOMS**

Dr. Kelsey drew Senate's attention to a report on the acoustics of UBC classrooms. The report had been recently prepared for the University's Ad Hoc Committee on Hearing accessibility by Dr. Murray Hodgson of the Occupational Hygiene Program. It presents well documented findings to support the conclusion that the UBC classroom

stock is of far from optimum acoustical quality, but that significant improvement would be feasible. Since the Senate Ad Hoc Committee on the Environment for Teaching is now disbanded, Dr. Kelsey stated that he was sending a copy of the report to the Senate Academic Building Needs Committee.

In discussion, Dr. Autor observed that this report was particularly useful for consideration of conference facilities on campus. She noted that the availability of high quality classroom space was important to attracting academic conferences. Vice President Birch suggested that the University could consider allocating some of the monies realized from conference fees to classroom renovation.

In response to a query by Mr. McNeal, student senator, Dr. Kelsey stated that the size of classrooms tested, ranged from 30 seats to 600.

#### **SCHOLARSHIPS**

Mr. Woo brought to the attention of Senate a complaint from a student who had discontinued his studies and left British Columbia. The complaint concerned a request from Financial Services that the student return the monies received during the time he was in attendance at UBC. Vice President Birch stated that if the information were provided, he would look into this matter.

#### **Report of the Tributes Committee (in camera)**
